

## DoD CYBER CRIME CENTER (DC3)

Cyber Forensics Laboratory

### CFL FACT SHEET

The Cyber Forensics Laboratory (CFL) performs Digital and Multimedia (D/MM) forensic examinations, device repair, data extraction, and expert testimony for DC3 customers. The lab's robust intrusion and malware analysis

capability supports law enforcement, counterintelligence, and Defense Industrial Base activities and operations. CFL also interacts with the Defense Cyber Operations Panel which consists of Defense Criminal Investigative Organizations and Military Department Counterintelligence Organizations to develop future requirements for innovative digital investigations.

CFL is accredited under ISO 17025 by the ANSI National Accreditation Board which guides reliable, repeatable, and valid examination results, subjected to quality control and peer review.

- Digital and Multimedia (D/MM) forensic examinations
- Device Repair
- Data Extraction
- Expert Testimony for DC3 Customers

A CFL Practitioner performing an advanced data acquisition process.

*“CFL’s robust intrusion and malware analysis capability supports law enforcement, counterintelligence, and DIB activities and operations.”*

—CFL
